TAILOR MADE
EXTRACT OF HOSPITALITY

climarlighting.com

CLIMAR and its excellence

Climar Lighting has been manufacturing and supplying reliable, efficient, high-quality lighting **since 1977**.

The company is proud to boast an obsessive eye for detail and quality of finishing, combined with a pragmatic touch for simplicity of installation. **Climar Lighting** has always believed and sought to improve with a view to different lighting perceptions.

The world of **Climar Lighting** is about history, ambiance and moments that last forever through lighting projects created with wisdom and passion for details. It is culture, it is the solution that combines human vision with particular attention to the emerging requirements of the future. The company's goal is to provide the most refined and sophisticated high-quality solutions for Hospitality Ambiances.

The conviction in its expertise

In addition to the range of lighting solutions presented in the **STANDARD PRODUCTS** chapter of this catalogue, **Climar Lighting** also accept requests on a daily basis that challenge its own essence, in the search for new concepts. Those challenges lead to bespoke lighting products developed for a wide variety of spaces. Some examples of bespoke projects can be found on the **TAILOR MADE EXAMPLES** chapter of this catalogue.

Climar Lighting is dedicated to the execution of ground-breaking lighting projects based on architectural design requirements. A creation process is essentially interdisciplinary and complex, involving different professionals: **Climar Lighting team** and the **client**. Each project is crafted with authenticity and unique touch, in which each piece is a challenging and fascinating venture.

Climar commits itself to the impossible, with a conviction in its expertise.

BYBEAU'S DIMPLE

DESIGN BY BYBEAU

Finding the right light.

DIMPLE was designed by Beau McClellan and manufactured by Climar Lighting for ByBeau. It is the natural progression, the application and adaptation of what we had learnt to fit other situations. Inspiration-creation-inspiration. Necessity may well be the mother of invention - but sometimes invention can prove to have maternal instincts of her own.

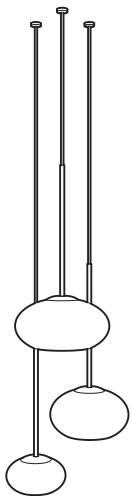

DIMPLE BY BYBEAU

Total freedom of imagination.

A distillation of the spirit and inspiration of our previous works, DIMPLE has been refined to allow for total freedom of imagination. As sensitive to the personality of a space or client as it is to the light of its surroundings, it offers a flexible, modular chandelier system to suit interiors of all sizes - starting from a single pendant through to flowing cascades of individual drops. Allowing a personal exploration of the space, aesthetic and feel of an environment.

Designed for stage, perfect for home.

This ByBeau product offers a truly exclusive experience with complete freedom to customise your design, **every drop** of the chandelier can be configured with a separate **RGBW LED** chip, providing either a single warm white or combination of natural whites where desired. Each of these drops can then be individually controlled via **DMX** to provide a fully personalised, reactive display. It's designed to be flexible, working either with its own control system or with an other already installed.

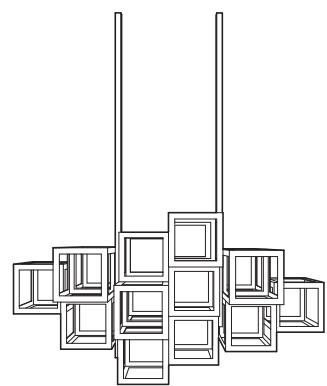

DIMPLE BY BYBEAU

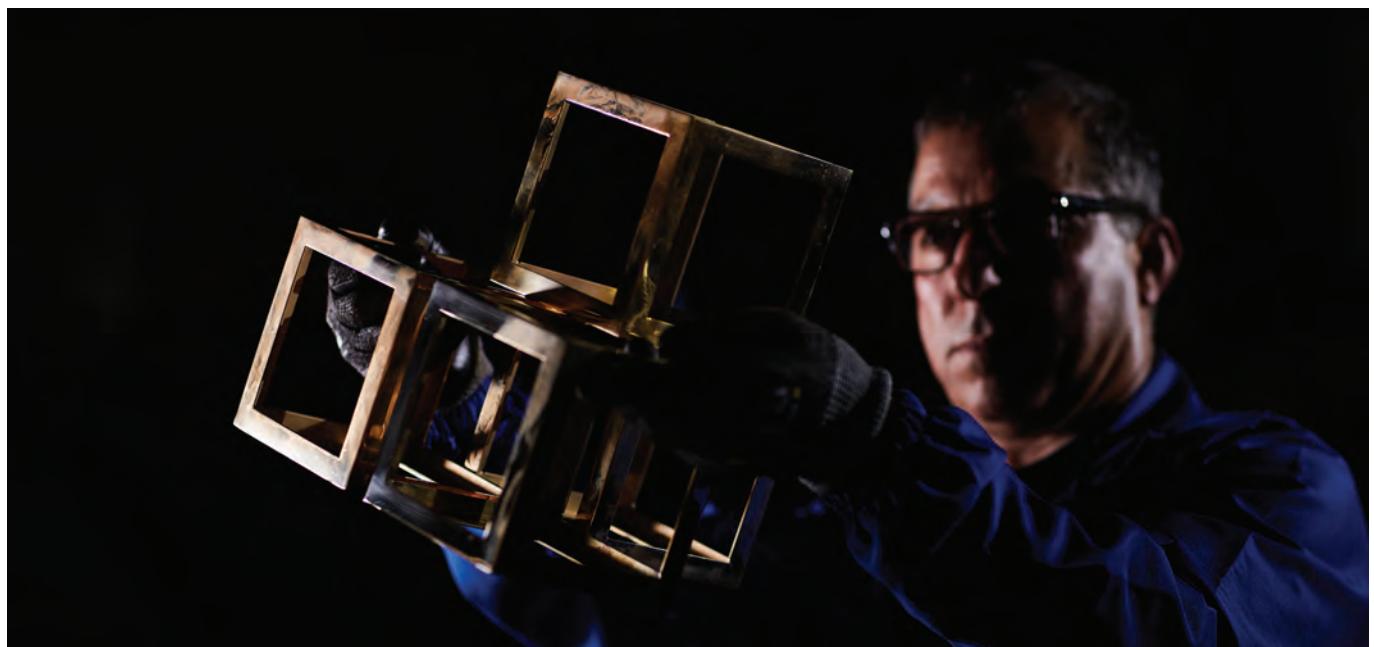

Mesmerizing lights, suspended at the sky.

When switched on, the unique, pioneering two-way **mirror-coated finish** - available in chrome - unveils an extra interior **hand-blown glass** ball. This playful approach to the interweaving of art and light captures the whimsy of imagination; transitioning throughout the day, providing a magical twist to the character and narrative of an environment.

Impressive talent.

By bringing together the best know-how from different areas, each project is adapted and manufactured by hand, keeping in mind the clients' needs and wishes. Exclusivity is a reflection of the professionalism that is practiced. The creation process focuses on the employees' efforts, who, in every work, combine the best of each one, obtaining refined solutions in terms of aesthetics, with a refined functional sense.

CUBO

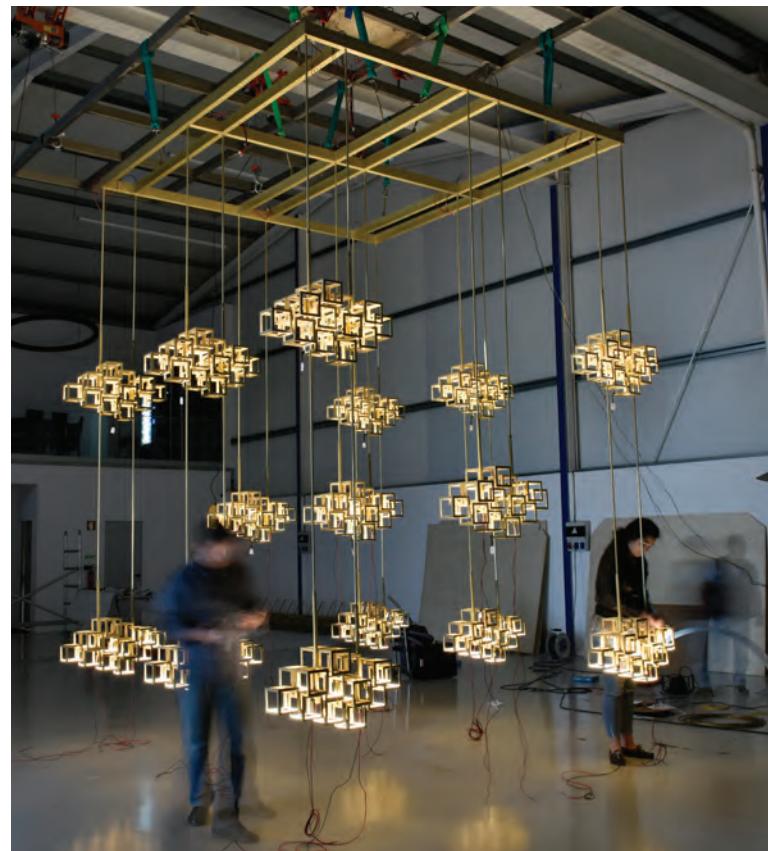

DESIGN BY BEAU MCCLELLAN AND BYBEAU TEAM

Creative vision.

In a classic Portuguese-style environment, light illuminates a path full of stories with a unique authenticity. Offering glimpses of this world, with harmonious touches and details of modern luxury, the concept was conceived by the creative, bold and talented designer Beau McClellan and his team at ByBeau Studio.

Elegance in the making.

The design of this lamp is based on cubic geometric forms that bring together new lighting concepts. The duality between the **matt and high-gloss finishes** result in an elaborate composition that embodies a deconstruction of the modules, frozen in time. Through the nobility of brass, the end result presents a perfect symbiosis between light and shadow.

SATURNO

Whenever
is required a
distinct design.

This is the ideal time to fall in love with simple lines and bronze hues. The piece brings out a touch of desire in the space, asserting itself as a stately piece with distinct uniqueness.

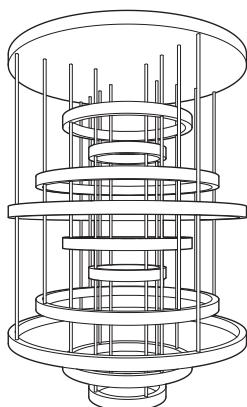

Ideal for prominent spaces, restaurants, bars or hotel lobbies.

PROJECT
Hotel EPIC Sana
Luanda - Angola

DESIGN
Climar Lighting

Surface mounted
luminaire composed of
10 rings, with measures
between **Ø600mm** and
Ø1800mm, in **aluminium**

height is **2000mm**.

KOBBER circular chandelier is composed by three rings with lighting flowing from small light points. With a varnished copper finishing, this bespoke chandelier can be customised to fit your interior design project. A true example of high-quality craftsmanship, this classic chandelier features three parallel rings and an extremely balanced design. Ideal to use as a modern dining room lighting fixture or as entrance lighting.

POP-UP

**It pops into
your eyes.**

Chandelier combining design with the aged brass finish to generate the lighting that accentuates, differentiates and enhances the character of any room. Characterized by a handmade structure with brass tubes carefully combined to form a geometric design.

With 84 tubes arranged in a rhythmic pattern and an extremely balanced design, this classic lighting design gets even more beautiful when you see the light flowing from its tubes. This luxurious chandelier is ideal for refined living rooms or grand halls.

composed of **84 tubes**,
measuring **Ø63mm**,
in aged **brushed brass**,
with **13 E27 LED lamps**
of **60W** maximum power.

AMELIE

Balance and Elegance.

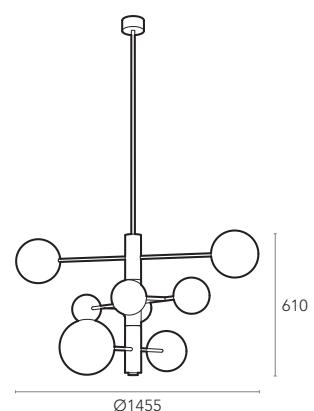

AMELIE suspension lamp is a very functional lighting that will add beauty and a classical touch to your interior design. Handmade in aluminium, the body is covered by a gold finish with opal glass globes providing soft diffused light. Ideal to use as a dining room lighting fixture or as an entrance lighting, AMELIE has a special appeal that won't go unnoticed.

DESIGN
Climar Lighting

MOQ - Minimum Order Quantity
4 units

Suspended luminaire
composed of **3 horizontal**
arms, in **aluminium** painted
in **golden colour**. With
opal glass spherical
elements with measures of
Ø140mm, and **Ø200mm**,
illuminated with **8 G9 LED**
lamps of **40W** maximum
power. Chandelier total
height of **1610mm**.

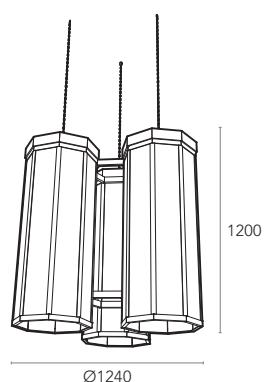

DESIGN

Climar Lighting

3000K or **4000K** and **105W**
($3 \times 35W$) total power.

DYNASTY

Decorative Trilogy.

Imposing chandelier with three suspended elements in an exuberant combination.

The aluminium structure covered by a gold-plated finish gives the chandelier a true sense of luxury. Since it is a bespoke lighting design, every feature can be altered to meet your expectations and requests.

DYNASTY is the perfect lighting fixture for the entrance of a luxurious hotel or framed in a wide space.

LUSH

All majestic places deserve lux.

Bespoke chandelier with handmade structure in stainless steel and an intricate design pattern, covered by a chrome or gold-plated finish. The silk lampshade is fitted with an opal diffuser for homogeneous light emission and comfortable environments. It's possible to customize this suspension lighting in any shape, dimension or finish, as well as in the texture and colour of the lampshade, to give each environment a reassuring and unique identity. LUSH is the perfect customisable chandelier for a luxurious lobby at a five-star hotel.

composed of an **oval**
chrome exterior structure,
with an exclusive pattern,
and a **white pongé**
silk lampshade centre,
illuminated with **8 E27**
LED lamps of **60W**
maximum power.

Oval 2100x1100

GOCCIA

Glass in its most organic form.

Extremely elegant and exuberant chandelier. With a stainless steel plate as support, this piece consists of randomly suspended glass balls, all different as a result of the manual glass blowing process employed. All the brightness of the piece is struck in the impact of the LED light in the glass balls, creating beautiful visual games of light. A true example of high-quality craftsmanship, GOCCIA is a bespoke lighting design where every feature can be altered to meet your expectations and requests. GOCCIA has the potential to become the centrepiece in large spaces with high ceilings.

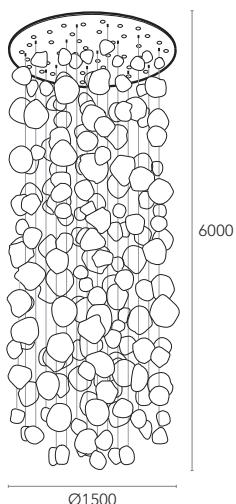

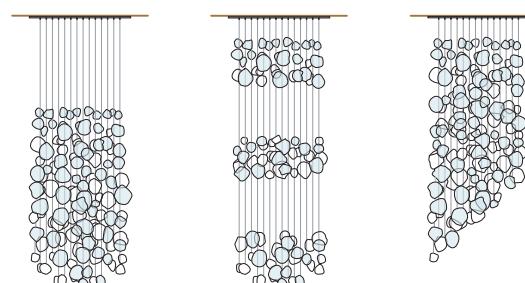

**PROJECT**

Isabel Castro Cabeleireiros
Aveiro - Portugal

DESIGN

Climar Lighting

Surface mounted luminaire composed of a **chrome structure**, illuminated with **72 LED technology** **spots** with a **5000K** colour temperature and **144W** total power. Suspended to the structure are steel cables with hand-blown **crystal glass** balls with three organic dimensions ($\varnothing 140$, $\varnothing 200$, $\varnothing 250$ mm) that produce several light reflections.

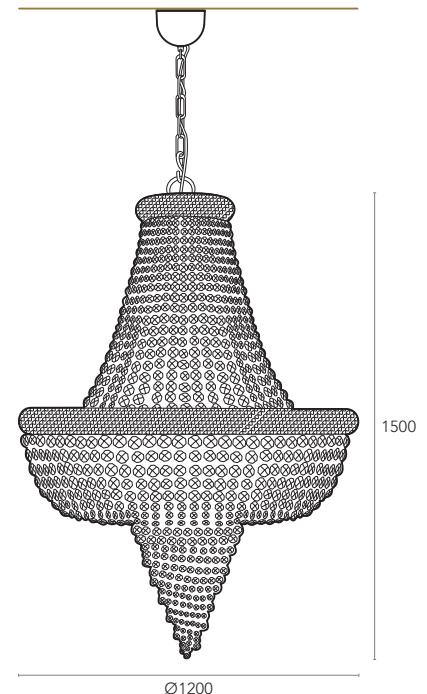

**ARRANGEMENTS**

DESIGN

Climar Lighting

Suspended luminaire
composed of a **chrome-plated brass structure**, illuminated with **24 E27 LED lamps of 60W** maximum power. Attached to the structure are **crystal glass** chains that give shape to the chandelier and produce distinct light reflections.

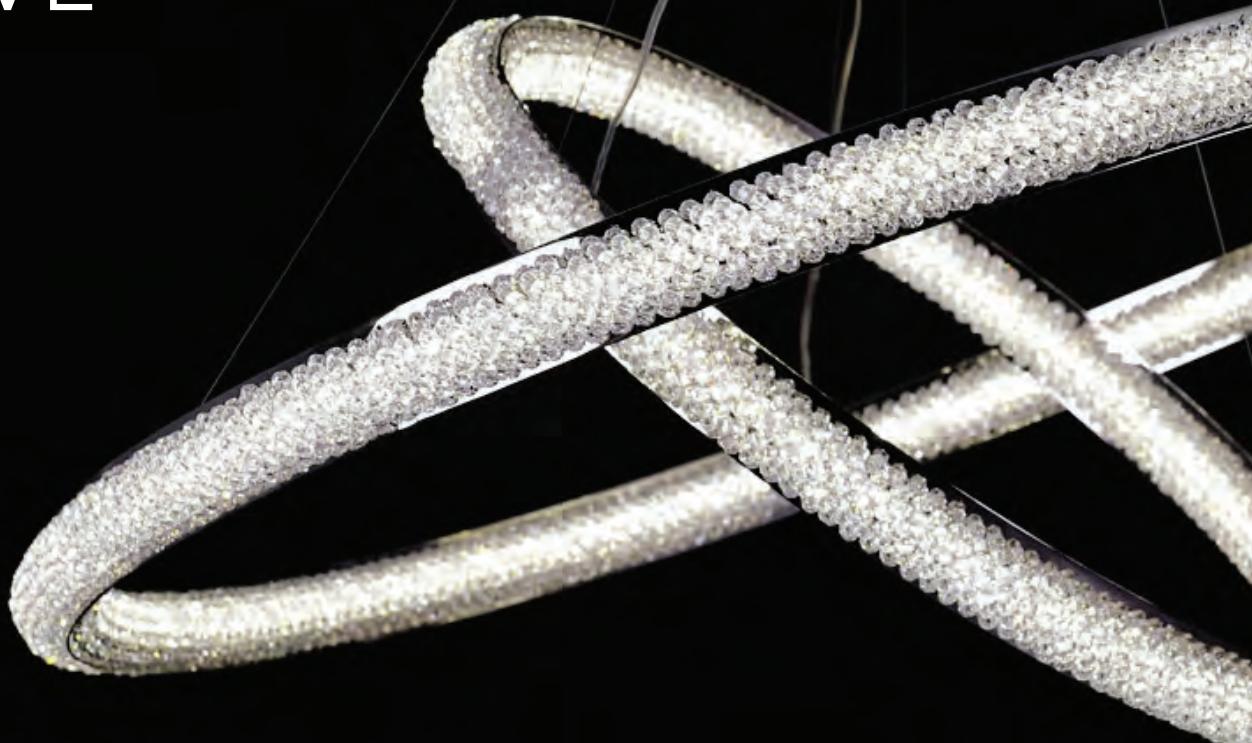

DREAM

Elegance and exuberance.

DREAM chandelier is a striking blend of vintage elegance and bold silhouettes. The chrome plated brass frame is draped in cascades of shimmering precision cut glass crystals of different sizes and shapes which reflect the lights beautifully for a glamorous elegance. Chrome ceiling cup with high strength chain suspension that can be adjusted for different ceiling heights. A true example of high-quality craftsmanship, this classic chandelier will make a magnificent centre piece to any large living room or hallway.

CRISTAL LOVE

Combining elegance, simplicity and technology.

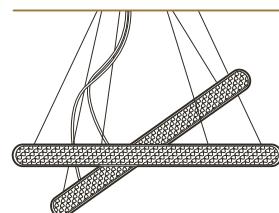

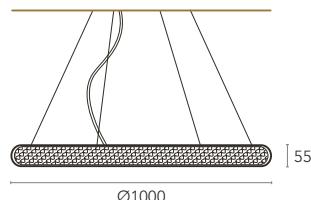

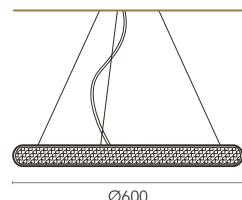

CRISTAL LOVE creates a design statement for contemporary and traditional interiors. This pendant lamp is characterized by the perfect fusion of materials as varied as crystals mounted on a chromed plated brass structure and LED lighting. The elegance and exuberance of the luminaire arise from the randomly suspended light rings in unobtrusive steel cables and the ability to be used either individually or in combination of several rings. CRISTAL LOVE is an exquisite handmade pendant lamp suited for the most luxurious settings.

DESIGN
Climar Lighting

MOQ - Minimum Order Quantity
4 units

Suspended luminaire
composed of a
chrome-plated brass
ring, illuminated with
LED technology of
4000K or **5000K** colour
temperatures and **52W**
($\varnothing 600$ mm) or **92W**
($\varnothing 1000$ mm) total power.
Attached to the ring are
crystal glass chains.

QUEEN

An origami of light.

Irregular hexagonally shaped lamp, marked by asymmetrical sharp edges. With a design inspired by origami – the Japanese art of paper folding – this striking multi-faceted pendant lamp emits light at fascinating angles from its many surfaces. Bicoloured finish lamp shade with matt white interior, enhancing the lighting design with a perfect mix of form and function. The homogeneous direct and indirect light distribution will make this unique lighting design suitable to be used in a modern living room design or as a modern dining room lighting.

PROJECT

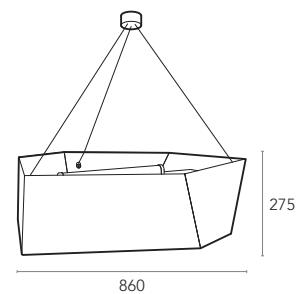

Academia de Ginástica de Guimarães - Portugal

3 units

Surface mounted
luminaire composed of a
chrome structure, where
are fixed **10 arms** that
shape the chandelier,
illuminated with **276**
points of **LED technology**
with colour temperatures
3000K, 4000K or 5000K
and **276W** total power.

DIAMOND

Shiny like
a diamond.

Sculptural ceiling lamp with very unique details that will certainly capture the attention.

This memorable lamp features a chromed finish that combines perfectly with the small LED light points for a true sense of luxury. The stainless steel structure is entirely shaped and assembled by hand. This lighting fixture is the perfect choice for a modern entrance as well as a statement lighting design in a hospitality project.

SOLARIS

Exquisite piece, a fairy tale chandelier.

Like something from a fairy tale or from the bottom of the ocean here is SOLARIS. With its unique shape, this exquisite chandelier is entirely made of hand blown glass, a true example of high-quality craftsmanship. It is a memorable lighting fixture, with very unique details that make it the luxurious bespoke design piece that it is. SOLARIS chandelier will certainly capture the attention of your guests.

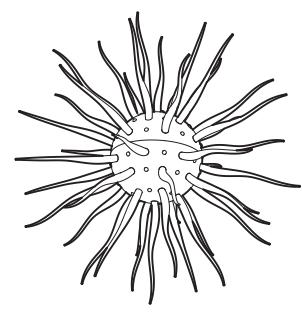

DESIGN

composed of an **aluminium**
structure painted in **black**.

With **opal PC** diffuser,
illuminated with **LED**

technology, with colour
temperature **4000K** and
142W total power.

CYLIX

Simple design with a lot of character.

CYLIX was designed to flood the room with subtle light and cleverly combines understated glamour with stunning design. Voluminous pendant lamp characterized by a handmade structure fitted with curved translucent panels which create exquisite light effects, further enhancing its shape. The varnished standard finish gives the lamp a true sense of luxury, however the finishes can be customised with any other metal or colour to fit your project. CYLIX is the perfect lighting for a luxurious lobby at a five-star hotel, but it also looks amazing in a grand dining hall.

ANAHORY

DESIGN BY JOSÉ AMARAL ANAHORY

Curvy organic, natural forms.

With delicate and curved forms, this unique lighting design was created to be a strong statement piece that cannot go unnoticed wherever it's placed. It is characterized by a stainless steel structure, entirely shaped and assembled by hand, wrapped in a special opaque Lycra. Sizes and colours can be customised upon request to fit your interior design concept. With an extremely balanced design, these sculptural lamps get even more beautiful with the ambient light being casted in all directions. ANAHORY will definitely make a statement in a classic and luxurious hospitality project.
